☎ +91 9019941317

📍 Bengaluru, India 560016

Passionate Full Stack Developer, AI Engineer, and Machine Learning Engineer skilled in frontend, backend, UI/UX, APIs, databases, and data analysis. Experienced in building scalable web applications and intelligent AI-powered solutions with a strong focus on user experience and business impact.

SKILLS

- Python
- Java
- MySQL
- Machine Learning
- HTML, CSS, and JS
- React.js
- (Pandas, NumPy, seaborn, and Matplotlib) for data analysis
- Data cleaning, preprocessing and statistical analysis

PROJECTS

- **Data Centre's Energy Consumption forecasting and Optimization with Renewable Energy Intergration**

Multi-output Regression using XGBoost and Bayesian Hyperparameter Tuning, We are building a machine learning model to predict two environmental metrics using real-world data., 2025-02-01, 2025-06-01

- **Portfolio Website**

Developed a responsive single-page portfolio showcasing skills, projects, and contact details. Implemented smooth navigation, project gallery, contact form, lazy loading, and optimized performance with responsive design.

- **Weather Dashboard**

Built a responsive Weather Dashboard in React using Open-Meteo APIs with browser geolocation. Implemented interactive weather charts, date-range insights, and visualized temperature, precipitation, wind, air quality, and sunrise/sunset data.

EDUCATION

Master of Computer Applications

Reva University, Bengaluru, IN

Intermediate of science

Bihar School Examination Board

Bachelor of Science, Electronics

A.N College, Patna, IN

Matriculation

Central Board of Secondary Examination

EXPERIENCE

- Internship at Prinston Smart Engineers for 3 months in Data Science , Bangalore
- Mentored students in Full Stack Development, AI/ML, and academic software projects. at Cimage College,Patna

CERTIFICATION

- Machine Learning with Scikit-learn - Infosys Springboard
- Java Swing GUI Widget Toolkit - Infosys Springboard
- Advanced Certification in cloud computing and DevOps , iHUB DivyaSampark, IIT Roorkee

RESEARCH PAPER

- Paper title - Optimized Multi-Output Regression using XGBoost and Bayesian Hyperparameter Tuning
