

JANKI SHARAN

@ js.jankisharan@gmail.com

+91 9019941317

Bengaluru, India 560016

Skilled in UI/UX design, frontend development, and data analysis, with a strong focus on creating intuitive interfaces and data-driven web applications. Looking to contribute to innovative projects that enhance user experience and business decision-making. Proficient in modern tools and technologies, with a passion for continuous learning and problem-solving. Committed to delivering high-quality solutions by combining creativity, technical expertise, and analytical thinking while collaborating effectively in team environments.

SKILLS

- Python
- Java
- MySQL
- Machine Learning
- HTML, CSS, and JS
- React.js
- Familiar with Python (Pandas, NumPy, and Matplotlib) for data analysis
- Knowledge of data cleaning, preprocessing and statistical analysis

PROJECTS

• Data Centre's Energy Consumption forecasting and Optimization with Renewable Energy Intergration

Multi-output Regression using XGBoost and Bayesian Hyperparameter Tuning, We are building a machine learning model to predict two environmental metrics using real-world data., 2025-02-01, 2025-06-01

• Portfolio Website

Developed a responsive, single-page portfolio to present my skills, projects, and contact details. Responsive layout (desktop, tablet, mobile) with CSS Grid/Flexbox. Project gallery with modal detail view and links to live demos & GitHub. Smooth scrolling navigation, mobile hamburger menu, and contact form (email link / form stub). Performance optimizations: lazy-loading images and minimal JS for fast loading. Integrated input validation, pagination, and filtering of API endpoints for efficient data handling.

• Weather Dashboard

Built a responsive Weather Dashboard in React using Open-Meteo APIs with automatic browser geolocation. Developed hourly visualization layer with separate charts per parameter and suitable chart types (line/bar/area) using recharts. Created a date-range (up to 2 years) insights page with comparative charts for temperature trends, sunrise/sunset (IST), precipitation, wind speed/direction, and particulate matter.

EDUCATION

Master of Computer Applications

Reva University, Bengaluru, IN

Intermediate of science

Bihar School Examination Board

Bachelor of Science, Electronics

A.N College, Patna, IN

Matriculation

Central Board of Secondary Examination

CERTIFICATION

- Machine Learning with Scikit-learn - Infosys Springboard
- Java Swing GUI Widget Toolkit - Infosys Springboard

RESEARCH PAPER

- Paper title - Optimized Multi-Output Regression using XGBoost and Bayesian Hyperparameter Tuning
